

Memorandum

To: David Vehaun, City Manager
From: Bruce Spicher, Building Official
Subject: Amendments to Flood Damage Prevention Ordinance
Date: May 20, 2012

Attached are amendments to this ordinance that were requested by the State's Flood Mitigation Program coordinator after a routine Community Assistance Visit in March 2012.

The majority of these revisions do not affect the substantive requirements or the intent of the ordinance, and include citation updates, relocation of some provisions and clarification language. In the one substantive change, the State has required that we take out language requiring temporary uses, since there is no authorization for such language in the federal program. We have been told we can handle these situations on a case by case basis.

The City has been required to adopt these amendments by July 1 to maintain the status of our flood insurance program.
